About how much candy is in the jar?

About 20 pieces

Event – a set of possible outcomes to an experiment

Frames-and-Arrows Diagram - diagrams consisting of frames connected by arrows used to represent number sequences; each frame contains a number, and each arrow represents a rule that determines which number goes in the next frame; there may be more than one rule, represented by different-color arrows

Glossary – a list of mathematics terms and their definitions, found in the back of the Student Reference Book (SRB)
